

Why this topic?

Pollution affects the environment, human health, and future generations. It can be seen everywhere whether it be our schools, communities, or even homes. It harms the air we breathe, the water we drink, and the land where we grow food, leading to diseases, environmental destruction, and climate change. Pollution is a problem that everyone contributes to, but it is also a problem that everyone can help solve. Creating an advocacy allows us to educate the population, promote eco-friendly habits, and push for changes that can lead to a cleaner, and safer world. Through spreading awareness, we can help build a better environment for current and future generations.

This screenshot shows a Canva interface for a slide titled "Segregation". The slide content includes:

- Biodegradable**: Materials that can be broken down (represented by a banana peeling).
- Non-biodegradable**: Materials that cannot be broken down (represented by a trash bag).
- Recyclable**: Materials that can be repurposed (represented by a recycling symbol).

A note at the bottom states: "Segregation means sorting waste into different groups to keep the environment clean and make recycling easier." The slide footer includes "Page 5 - Add page title" and "HOME | EXPLORE | CONTACT".

This screenshot shows a Canva interface for a slide titled "The 3 R's—Reduce, Reuse, and Recycle—help lower waste and protect the environment. Reducing cuts waste, reusing gives items another life, and recycling turns trash into treasure." The slide content includes:

- Reduce**: Materials that can be broken down (represented by a banana peeling).
- Reuse**: Materials that cannot be broken down (represented by a trash bag).
- Recycle**: Materials that can be repurposed (represented by a recycling symbol).

A note at the bottom states: "The 3 R's—Reduce, Reuse, and Recycle—help lower waste and protect the environment. Reducing cuts waste, reusing gives items another life, and recycling turns trash into treasure." The slide footer includes "Page 6 - Add page title" and "HOME | EXPLORE | CONTACT".

A screenshot of a Microsoft Edge browser window. The address bar shows the URL: "C:\Users\marye\OneDrive\Documents\CS4A\Q2\index3.html". The page content includes a logo for "WASTE REALITY" with a recycling symbol, and navigation links for "HOME", "ABOUT US", and "CONTACT". There are two main sections of images. The first section, labeled "Location 2", contains two images: one showing several people standing around a large pile of trash outdoors, and another showing a close-up of a person's feet walking through a deep pile of trash. The second section, labeled "Location 3", contains one image showing a large pile of trash on a street at night. To the right of these images is the text "Places that have lots of trash in Butuan". The background of the page features faint illustrations of trash cans and hands.

WASTE REALITY

HOME | EXPLORE | CONTACT

Segregation

Segregation means **sorting waste** into **different groups** to keep the environment clean and make recycling easier.

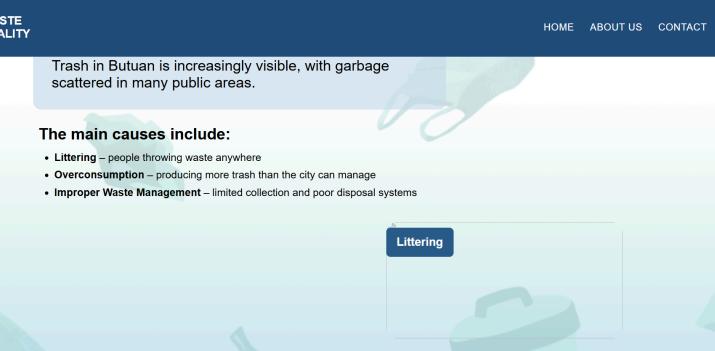

Waste Type	Description	Examples
Biodegradable	Materials that naturally break down over time	Food scraps, leaves, paper
Non-biodegradable		
Recyclable		

Page 8 • Add page title

WASTE REALITY

The screenshot shows a Canva editor interface. The left sidebar contains various design tools: Design, Elements, Text (with a bold T icon), Brand, Uploads, Tools, Projects, Apps, and Magic Media. The main canvas features a blue header bar with the text 'Your paragraph text' and icons for undo, redo, preview, share, and send to teacher. Below the header is a toolbar with icons for trash, circle, animate, and position. The main content area has a dark blue background with white text. At the top right are links for 'HOME | EXPLORE | CONTACT'. The central title reads 'Places in Butuan that have lots of trash' in bold black font. Below the title are three large, dark blue rectangular boxes labeled 'loc. 1', 'loc. 2', and 'loc. 3' from left to right. A light blue decorative graphic of a city skyline is visible behind the text. At the bottom of the canvas is a horizontal bar with the text '+ Add section' and a series of small thumbnail images representing different design elements. The bottom right corner shows a progress bar at 73% and a 'Pages' button with the number '2 / 9'.

WASTE
REALITY

HOME ABOUT US CONTACT

Trash in Butuan is increasingly visible, with garbage scattered in many public areas.

The main causes include:

- Littering – people throwing waste anywhere
- Overconsumption – producing more trash than the city can manage
- Improper Waste Management – limited collection and poor disposal systems

Littering

Overconsumption

A screenshot of a web browser showing the remove.bg website. The page has a header with tabs for Messenger, Ways to Prevent Trash Pollution, Biodegradable containers don't, Remove Background from Image, and other browser tabs. The remove.bg logo is at the top left, followed by 'remove.bg upload'. Below the logo are links for Uploads, Bulk Editing, API, Plugins, Pricing, and a yellow 'Save 50%' button. A message says 'We've updated our Terms.' A navigation bar below includes Cutout, Background (which is selected), Effects, Adjust, Design, and a Download button with a dropdown menu. The main content area shows a cartoon illustration of a potted plant, a sandwich container with a leaf inside, and a bottle. A 'Background' tool icon is highlighted with a red box. A tooltip for the preview image says 'Preview 258x195 Free' and 'Max. Image too small'. At the bottom, a green box contains the text: 'By using remove.bg you agree to the use of cookies. You can find details on how we use cookies in our Cookie Policy.' with a 'Close' button.
